WHY CLEANSE?

Panchakarma is a specialist Ayurvedic Cleansing program, which should only be undertaken with an experienced qualified Ayurvedic Doctor.

The body regularly accumulates toxins, which are primarily caused by stress due to the everyday demands of life.

Cleansing can play a major role in bringing balance back to the body & mind when experiencing issues such as: poor digestion, disturbed sleep, weight gain or loss, hormonal imbalances including strong fluctuating moods, irregular cycles, difficulty in conceiving & or menopause symptoms, anxiety or depression.

Each day on retreat you will receive consultations & Ayurvedic treatments with Gangashree, enjoy easy to digest cleansing meals, learn the key yogic methodologies for purification & relaxation, & take deep rest.

If you would like further information regarding whether this style of retreat is right for you, please call Tina on 0488 766 508
